## Course structure

All our courses follow a four-stage structure that includes entry assessments, course delivery, the checking of progress and assessment of development. These stages are:

### Initial Assessments

Prior to enrolment, you will be required to complete initial assessments in English and Maths to determine the level you are currently working towards. If you are currently employed within a job role which supports the course curriculum, you will be required to complete an entry assessment form to confirm job suitability. If you are applying for an apprenticeship role sourced by us, this will be completed by our team.

### On-programme Learning

Throughout the duration of the course, you will be supported by your employer and Apprenticeship Connect tutor to develop the competencies necessary to become a certified management professional. On-programme learning will include the teaching needed to help you develop the knowledge, skills and behaviours outlined within the apprenticeship standard. Where necessary, you will also be supported to pass Functional Skills at the level stated within the course outline.

### Gateway

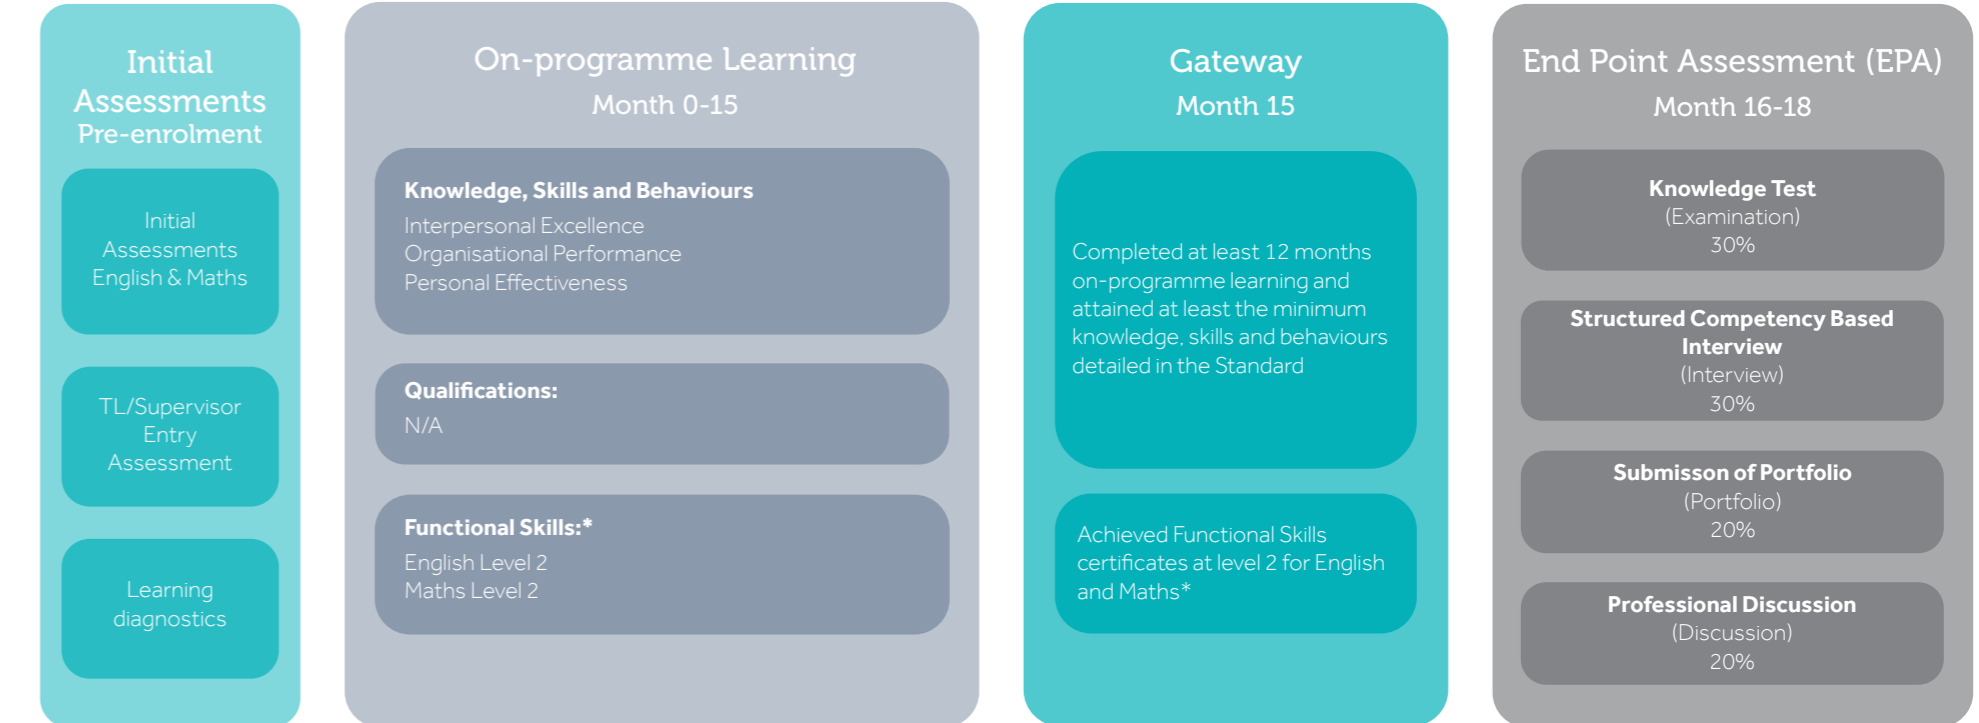

Before you are able to progress to your End Point Assessment, your tutor and employer will make the necessary checks to ensure you have gained the knowledge, skills and behaviours required to complete your course.

### End Point Assessment (EPA)

All apprenticeship standards contain compulsory End Point Assessments which a learner must pass in order to achieve their completion certificate. The EPA takes place once you have completed your on-programme learning and you have successfully met the criteria outlined within the Gateway.

## Course outline

The Team Leader/Supervisor Level 3 course is delivered over 18 months. At the end of month 15, we allow a three-month period for learners to prepare for and sit their End Point Assessment.

\*If you have already achieved GCSE grade C/grade 4 or above in English and maths, or equivalent, you may be exempt from this element of the syllabus.

## Course delivery

### 20% off-the-job training

Throughout the duration of your course you will spend a minimum of 20% of your contracted working hours studying for your apprenticeship. The focus of off-the-job training is to teach you a variety of new skills specifically related to your job role, rather than assess your existing skills and ability to complete work related tasks. This will be a combination of tutor delivery, employer support and tutor guided independent study.

### Digital resources

When studying at Apprenticeship Connect, you will be provided with a digital e-portfolio that is unique to you and the course you are studying. Our e-portfolio system allows 24/7 access to syllabus information, learning aids, online assignment submission and a messaging platform to contact your tutor should you require additional support.

### Learning support

We provide additional support to learners with learning difficulties such as dyslexia and those with physical disabilities such as visual or hearing impairments. We can provide resources such as a scribe or large-print documents, and can facilitate other reasonable adjustments to ensure that an individual with learning difficulties or a physical disability is not at a disadvantage when completing their course.

## Study time

All time spent studying will be recorded within your personal training diary and your progress will be frequently monitored to ensure you are on track. The time you will need to spend studying is calculated using the following formula:

### Total hours required =

(contracted working hours per week x programme duration (in weeks))  
x 0.2

Here's an example:

Contracted hours per week:	40
Weeks within programme:	52
<b>Total study time:</b>	416 hours
Average study time per week:	8 hours
